One week deployment is typical, but schedules can be adjusted. Field deployment requires training and in some cases, medical monitoring. Check with Phil regarding your training needs.

Blake:

What is the projected schedule (how long would one be deployed to the site for)?

Thank you.

Lauren Ray

Subject: Availability to Deploy to NM

Please share your availability over the next 3 weeks to provide support on the Gold King Mine response. We especially need to know of immediate deployment capability, this week.

Thanks.
